EXPERIENCE

Uzinfocom

Apr 2025 – Present

Middle Frontend Engineer

- Developed responsive web applications using React and Redux, enhancing user experience and engagement across multiple platforms.
- Evaluated budgets, performance requirements and legal issues to incorporate technical considerations into website design plans.
- Architected the admin dashboard using React, Vue and Redux, ensuring scalable state management across all modules and reducing load times by 40%.
- Utilized version control systems such as Git for efficient code management and collaboration within a cross-functional development team.

Asoschi

Nov 2024 – Apr 2025

Lead Frontend Engineer

- Architected the admin dashboard using ReactJs, NextJs and Redux, ensuring scalable state management across all modules and reducing load times by **40%**.
- Conducted regular code reviews and provided constructive feedback to junior developers, which fostered a culture of learning and improved code quality within the team.
- Optimized website performance through code splitting and lazy loading techniques, resulting in a **50%** reduction in load times and significantly boosting overall site traffic.
- Collaborated with management and users to develop e-commerce strategies and to integrate these strategies with Web sites.

Projects: xolodilnik.uz / sazumarket.uz / [adminka](https://adminka.uz)

Munis Savdo

March 2024 – Nov 2024

Lead Frontend Engineer

- Spearheaded the creation of cutting-edge web applications, including a **CRM** platform, an **HR** management system, and a supplier agreement automation site, streamlining operations for various departments.
- Led the development and launch of several projects, successfully integrating with systems like tax authorities, payment terminals, and **WebSocket** technology
- Applied modern CSS frameworks and responsive design principles to create an intuitive, mobile-friendly admin dashboard that adapts seamlessly to various devices.
- Collaborated with backend engineers to implement RESTful APIs that seamlessly integrated with the admin modules, ensuring dynamic and efficient data updates.

Projects: [kassa](https://kassa.uz) / [operator](https://operator.uz)

Abutech Software Development

Nov 2022 – Jun 2023

Frontend Engineer

- Throughout my participation in a significant portion of the project, I identified and addressed over **100 issues**, effectively reducing them by **3 times** through the addition of new components and sections.
- Worked closely with **backend** developers and **UI/UX designers** to implement responsive and user-friendly interfaces, ensuring a seamless user experience across devices.
- Developed departmental objectives, budgets, policies, procedures, and strategies.

Projects: najottalim.uz

EDUCATION

Tashkent State University of Economics

Sep 2021

- Bachelor, Faculty of Finance and Accounting

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next, Vue, Nuxt, Angular, Node

Libraries: Redux Toolkit, Zustand, Mobx, TailwindCSS, Ant Design, MUI, WebSocket

Tools: Figma, Git, Webpack, Vite, Formik, CI/CD

PERSONAL PROJECTS

- A showcase of projects I've built, including descriptions, technologies used, and key achievements. **Explore my work:** www.islomjon.uz
- Published multiple open-source libraries to enhance React development and improve client-side functionality. **Explore on NPM:** www.npmjs.com/~islomjon
